

THE AMBROSE CONDOS

ELITE'S AFFORDABLE BOUTIQUE CONDO LAUNCHING THIS SPRING

The Ambrose Condos is a 10-storey boutique condominium launching this spring 2021 in Brantford. Developed by Elite Developments and designed by SRM Architects Inc., the 198-unit residence features suites with spacious floorplans and expansive balconies and terraces. The Ambrose is conveniently located within proximity to transportation, universities, parks, trails, beaches, shops and restaurants.

"With affordable pricing starting from the \$300,000s, in Canada's sixth best city to live in, this development offers an incredible opportunity to have a higher quality of life, for a fraction of the cost in the GTA," says Kim Kopyl, vice-president of sales and marketing at Elite Developments. "Southwestern Ontario recently experienced the largest increase in sales in 2020, as people began working from home and relocating. The overall importance of a home

has changed. Having more interior and exterior space with thoughtful amenities is no longer a need of homebuyers but a requirement. The Ambrose delivers on this."

Located at 401 Shellard Lane, residents of The Ambrose Condos will benefit from being minutes to the Colborne Common Shopping Center, which has a Sobeys, Shoppers Drug Mart, Starbucks, banks, medical centres, restaurants and the Wayne Gretzky Sports Centre, which is the largest sports centre in Canada, having everything to help keep you healthy and fit.

Brantford is a historical city ignited by innovation, filled with art galleries and museums. Natural green spaces are right at your fingertips. Enjoy weekends at the Brant Conservation Area and canoeing down the Grand River. With the Brantford-Cambridge Trails running along the Grand River, you will have 77 kms of the best

hiking and biking trails in Ontario.

Within the development, thoughtfully curated amenities await. A contemporary lobby enveloping natural surroundings of stone, water and fire welcome you home with a living green wall. Green features complement the surrounding property, featuring a community garden with garden plots, a seasonal sports field to be used for soccer and as a rink during the Canadian winter months for family skating and playing hockey. A state-of-the-art indoor and outdoor fitness centre, featuring an outdoor running-track, yoga area and outdoor calisthenics is located on the sixth-floor terrace. A spectacular party room with chef's kitchen, games area and an outdoor patio, featuring barbecue niches, lounge and outdoor dining. Not to worry, this development also respects four-legged family members, and provides a convenient off-leash dog park and wash area.

The Connectivity Lounge provides a safe space for students, entrepreneurs, and empty nesters to work and connect in. This amenity space is filled with the latest technology so residents can study together, host Zoom meetings, and Skype with family members while enjoying a latte. Feel free to enjoy the fresh air while surfing the net on the Connectivity Lounge's outdoor terrace. Other amenities include a socially distanced theatre, expansive expanded parcel room, bicycle and locker storage areas, and electric vehicle charging stations.

Suites at The Ambrose range in size from 450 to 1,000 sq. ft. Available floorplans include a collection of spacious one- and two-bedroom units with open-concept layouts, functional living spaces, impressive finishes and stunning standard colour palettes designed by Raphael Gomes Interiors.

Elite Developments has built its foundation with 50 years of combined building experience. They have attained a reputation for delivering premier residential and commercial properties throughout Ontario. Elite acquires locations for communities to improve quality of life. They focus on providing homes with thoughtful amenities, spacious layouts, health and wellness, and leading innovative features throughout. This reflective precision is executed by a dream team of experienced professionals specializing in real estate, who deliver homes that are affordable and enjoyable, while maximizing value for investments in real estate.

"We respect the surrounding landscapes and build homes that complement existing environments, while our team choreographs a premier lifestyle for our

homeowners," says Kopyl. "All our homes are focused on health, wellness, and have leading innovative features throughout. We build every home as if we would live in it ourselves."

"There is a lot of time given to ensure we deliver a sustainable product for the future, anticipating the needs of our homebuyers," adds Sam Sakhi, president of Elite Developments. "We understand the importance of a home and look forward to building communities of excellence, with convenient amenities, surrounded by nature."

Stay tuned for Elite's upcoming launches: Woodland Country Estates in Hagersville; Electric Avenue and Steeltown in Hamilton; 88 James in St. Catharines; Victory Tower in Vaughan; Station Sixty Lofts in Brantford; and The Fonthill, in Fonthill. Register now at elitedevelopments.com.

"Our passion in real estate is evident by delivering superior quality, leading-edge designs and wellness-derived homes," says Hamid Hakimi, CEO of Elite Developments. "We build homes inspired by you, with innovative living for life."
